

Frequently Asked Questions *Magellan EnhanceMed*SM

What is Magellan EnhanceMed? Why was it developed?

Magellan *EnhanceMed* provides educational information about medications to assist prescribers in their efforts to provide safe, appropriate and cost-effective care to their patients. We provide patient-specific reports obtained through our review of pharmacy claims.

Who sponsors Magellan EnhanceMed? Is there a cost to prescribers or patients to participate in the program?

Magellan *EnhanceMed* is sponsored by Magellan Behavioral Health and customer organizations that are enrolled in the program. There is no cost to prescribers or patients to participate in the program.

How does Magellan EnhanceMed create intervention reports?

Intervention reports are created using pharmacy claims-based protocols after a thorough review of pharmacy claims data. We review claims based on evidence-based guidelines and FDA-approved labeling. A summary report of the provider's prescribing patterns as they relate to specific medication guidelines is included in the intervention, along with patient-specific recommendations and potential action items.
